

A highly skilled creative professional with 20 years in brand marketing and communications, I balance an inspired aesthetic sense with clear messaging and audience engagement. With experience leading most major types of collateral from concept to completion, I see the big picture while getting down to the crucial details.

- Advanced knowledge of Adobe CC (InDesign, Photoshop, Premiere, Illustrator, Dreamweaver) and Microsoft Office (superior PowerPoint skills) for compelling storytelling.
- Exceptional organizational skills to gracefully manage multiple projects; ability to excel independently, and a natural at leading a team with a positive outlook under deadlines.
- Focus on accessibility and diversity; from serving the Deaf Community, to global Microsoft communications.
- Insight into workflows to streamline turnaround and interaction with partners, optimizing for scalability and extensibility, including trainings and localization.
- Experience across audiences – public clients and customers, donors and investors, vendors and internal stakeholders – and sectors including technology, health care, education, retail, finance, and the arts.

Digital & Print Design

- Versatile across deliverables – booklets/whitepapers, email, infographics, newsletters, brochures/onesheets, reports/presentations, RFPs, advertising, instructional materials, signage (tradeshow, directional, POS) – with an awareness of standards through production: typography, color management, pre-press.
- Social media interactions: posts, building followers, online advertising, tracking metrics.
- Photography including portraits and product photos, image processing, retouching and editing.

Communications & Messaging

- Ability to distill complex narratives into clear and compelling messaging.
- Natural at bringing together different viewpoints and objectives for a cohesive delivery.
- Coordinated reach through channels including social, web, email, and physical touchpoints.

Video Production

- Creative eye for editing with Final Cut Pro X and Premiere, with an ability to cut to the heart of the story.
- Shooting with Nikon and Canon DSLR cameras/lenses; knowledge of related formats, lighting, captioning.
- Experience working with a video crew, providing direction, timeline, and a comfortable presence.
- Extensive background in audio production – recording with multiple microphones in studio and location settings, mixing and editing (Cubase and Logic); composing music scores and sourcing soundtracks.

Web & App Design

- Ability to craft an intuitive UI/UX; feel for color, imagery, and flow. Attention to brand compliance, asset organization in a Content Management System (CMS), technical requirements from mockups to publishing.
- Current knowledge of HTML/CSS techniques (design and front-end development), with an understanding of WordPress, JavaScript/jQuery, SEO, accessibility and cross-browser compatibility.

StartGuides | Alexandria, VA**App Designer** | April 2023 – January 2026

Design of instructional mobile apps (phone/tablet) for self-paced learning of military systems by U.S. Armed Forces. Distilled critical, complex processes into clear sequences, delivered in collaboration with PMs and IT.

Allyis, Inc. | Kirkland, WA**Design Lead, Microsoft** | August 2013 – April 2023

Handled the gamut of digital campaigns: marketing, onboarding, event, enablement, insights and case studies in all formats (web, PPT, video, PDF, email, social, display). Hired and supervised up to 3 permanent designers and 8 temps; worked closely with client owners, PMs, and publishers. Deep understanding of Microsoft Brand Guidelines, providing training and alignment, UX for Worldwide Learning teams. Created templates used globally. Managed timelines for 10+ simultaneous projects. Point person for design updates across 1000+ assets during three major rebrands. Productivity apps: Jira, Azure DevOps, Salesforce, and SharePoint.

Fred Hutchinson Cancer Center | Seattle, WA**Web Producer** | June 2012 – August 2013

Lead video editor (FCPX), sound for video (interview dialog and soundtrack composition) and co-director on research videos, capturing B-roll in the labs with a small team. Produced new and updated communications – websites (WordPress, HTML/CSS), newsletters, logos, brochures, presentations, grants – for DefeatHIV, Breast Health Global Initiative, and other Center projects. Produced research lab microsites; point person for photo selection, color, formatting, moving content to Adobe CQ CMS.
